Invitation:

It is a matter of great pleasure for us to invite you to attend the national seminar on “Current scenario and Eco-friendly approaches for environmental conservation” sponsored **MHEQIP**, Bhopal and organized by IQAC and Department of Science, Govt. Girls College, Khargone.

About College:

Govt. Girls College, Khargone is a State Government institute situated in Khargone district of Madhya Pradesh established in 1984. It is the main centre of women education in West Nimar region.

The main objective of this institute is to provide quality education, enhancing employability of student and create innovative and education environment in the campus. Its provide various undergraduate and post graduate courses in Science, Home sciences, Arts and Commerce.

About Seminar:

Environmental conservation through eco-friendly approaches are the practices of humans, for saving the environment from the loss of species, and the destruction of the ecosystem and human activities. Due to active industrial development and rapid progression of modern economies the environmental problems have become the most serious global challenge.

So, scientific community has drawn his attention towards adopting and developing eco-friendly approaches for conservation of environment. The eco-friendly approached have not only provided effective strategies for solving the environmental problems but have also exhibited unique benefited as compared to traditional methods. Therefore, the conservation of environment by involving the innovative eco-friendly approaches is the primary concern for the future of humanity.

The main objective of this seminar is to provide a platform to young and ignited mind, scholar and faculty member from different field to share their innovative and eco-friendly approaches and novel work in this area.

Thrust Area:

- Environmental pollution and its effects.
- Climate Change
- Waste management
- Sustainable practices for conservation of environment.
