

## Policy Document On Environment and Energy Usage

The Environment and Energy Usage Policy of Government Girls College, Khargone (M.P.) is to manage energy in a systematic way to minimize its effects on the environment. The policy infers to explore the renewable energy assets to decrease the load of the government and to find out auxiliary natural resources as solutions to the energy disaster. This environment and energy policy is binding for all the constituents of the college and applies to all its stakeholders and to the various activities undertaken by the institution. This practice will assist us to implant efficiency and environmental responsiveness into our everyday activities, thus helping us to realize our responsibilities and commitment to conservation of natural resources and to limit its usage. The Eco-Club and NSS provide official platform dedicated to the cause of environmental awareness, to undertake green initiatives and conduct green literacy programmes to save energy and to protect the environment.

### **Policies:**

- ❖ To insure the minimum impact of pollution the college developed green campus.
- ❖ For minimizing air pollution emissions using environment-friendly vehicles, including bicycles, public transportation and use of pedestrian-friendly roads.
- ❖ To install roof top solar panels system for the generation of renewable energy.
- ❖ To install low consumption LED bulbs in the campus to save energy.
- ❖ To develop systematic waste management mechanism.
- ❖ To develop rain water harvesting unit.
- ❖ To undertake tree plantation drive.
- ❖ To develop Chakk Dam for conservation of rain water and stop soil erosion
- ❖ Continuously perform green audit to improve our energy consumption.
- ❖ To ensure the availability of necessary resources to achieve our objectives.

## OFFICE OF THE PRINCIPAL, GOVERNMENT GIRLS COLLEGE KHARGONE (M.P.)

- ❖ To provide awareness to our employees' and students' about environmental knowledge and skills in order to improve our own environmental performance.
- ❖ To provide information and training opportunities on energy saving measures.
- ❖ To offer opportunities for employees and students to engage in initiatives those contribute to environmental protection.
- ❖ The college drive regular programs for tree plantation and energy saving each year.
